

Sea Logistics

Dried fruits and nuts

Choose from a bounty of logistics solutions to ship your dried fruits and nuts to any market.

Dried fruits and nuts

From almonds to pistachios, your products deserve the best care. With our global network and industry expertise you can harvest the best container shipping solutions.

World-wide connectivity with local know-how

Whether baking a pecan pie or sprinkling a handful of dried cranberries on your salad, every creation should have the freshest ingredients. That is why quality is the centrepiece of our 400+ Customer Care Locations (CCL) stationed around the world.

Our teams understand markets in all dried fruits and nuts producing countries. You get direct on-site contact that combines local expertise with global network access.

Secure reliable space allotments with flexible shipping schedules across all alliances and on every trade lane.

Your supply chain reaches beyond the ocean voyage. Our logistics professionals optimise solution at each touchpoint in your product's journey from customs brokerage to final delivery.

Sustainability

Regardless of your preferred mode of transport, Kuehne+Nagel has options to help meet your sustainability targets.

Start sending your shipments with biofuel or offset them in nature based projects when CO2 emissions cannot be 100% avoided.

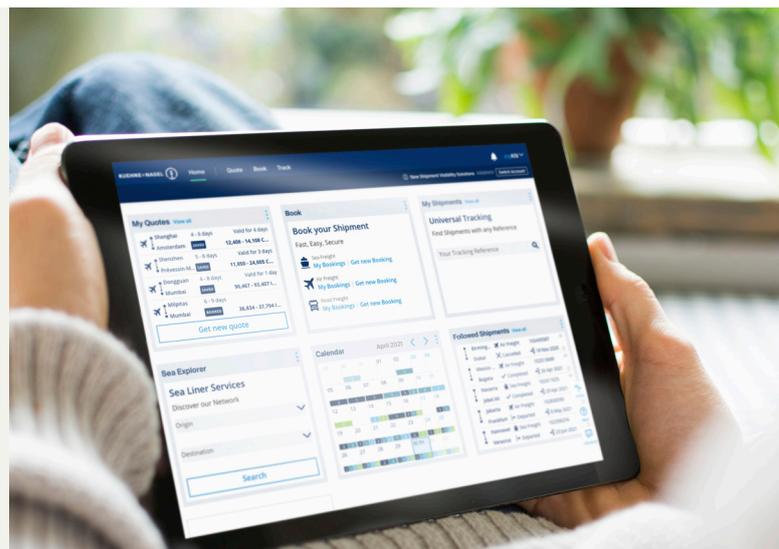

Temperature-controlled and market-ready

When products such as fresh dates require extra care in transport, you want them to stay at peak freshness until they reach their destination.

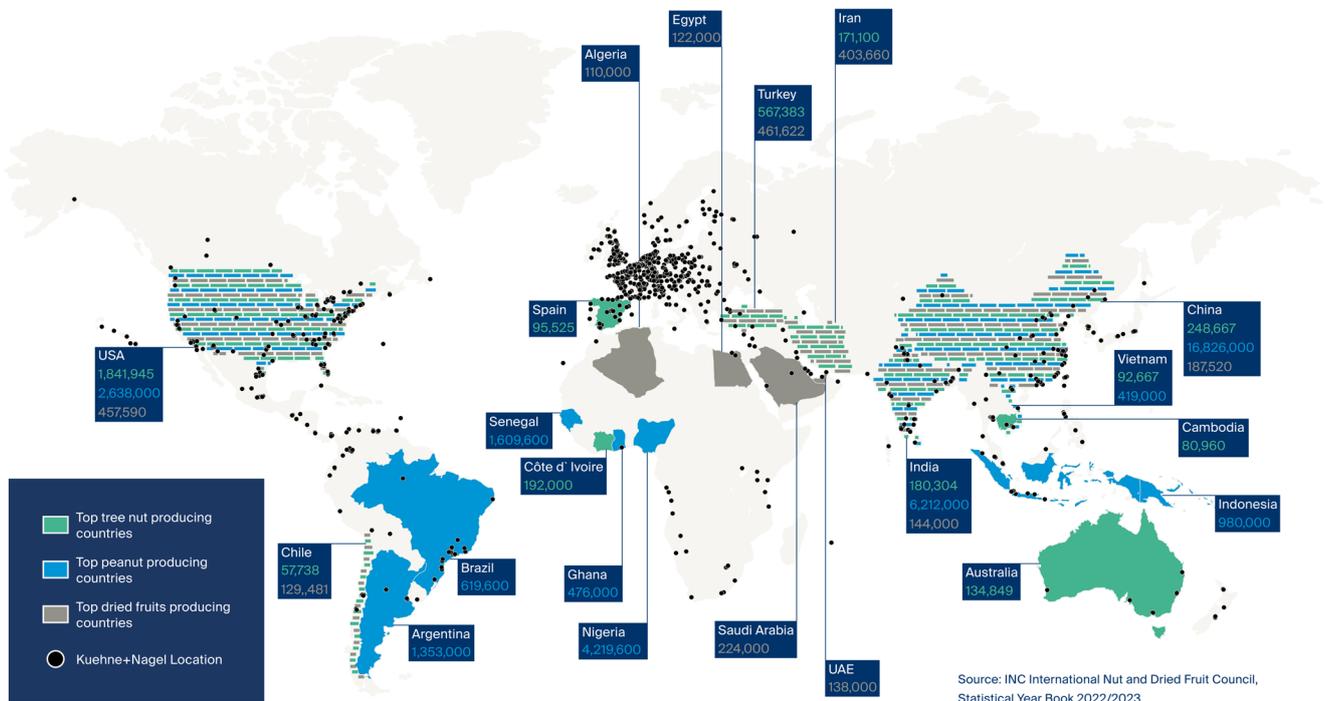

Our reefer solutions ensure your temperature-sensitive products arrive with optimal shelf life and their full flavour.

Track your shipments on the myKN platform!

About us

Kuehne+Nagel is the number one in global sea logistics. Over 12,000 experts worldwide ensure customers can access reliable sea transport on all major trading routes and 150,000 port connections. Our focus is on shipping full container loads (FCL) and less than container loads (LCL), perishable and fresh cargo shipments as well as project logistics. We offer a flexible and reliable service with more than 17,400 weekly departures and a multitude of connections in an independent network spanning multiple shipping companies. Innovative digital information solutions, such as seaexplorer, ensure full visibility and customised supply chains, whatever the size of the company.

Kuehne+Nagel offers completely climate-neutral shipments in sea freight, e.g. via biofuel. In doing so, the company aims to neutralise its collective carbon footprint including all suppliers and help all stakeholders achieve their own bold environmental targets.
