6.8 SEGMENT REPORTING

a) Reportable Segments

The Group provides integrated logistics solutions across customer's supply chains using its global logistics network.

The four reportable segments, Seafreight, Airfreight, Overland and Contract Logistics, reflect the internal management and reporting structure to the Management Board (the chief operating decision maker, CODM) and are managed through specific organisational structures. The CODM reviews internal management reports on a monthly basis. Each segment is a distinguishable business unit and is engaged in providing and selling discrete products and services.

The discrete distinction between Seafreight, Airfreight and Overland is the usage of the same transportation mode within a reportable segment. In addition to common business processes and management routines, a single main transportation mode is used within a reportable segment. For the reportable segment

Contract Logistics the services performed are related to customer contracts for warehouse and distribution activities, whereby services performed are storage, handling and distribution.

Pricing between segments is determined on an arm's length basis. The accounting policies of the reportable segments are the same as applied in the Consolidated Financial Statements.

Information about the reportable segments is presented on the next pages. Segment performance is based on EBIT as reviewed by the CODM. The column "eliminations" shows the eliminations of turnover and expenses between segments. All operating expenses are allocated to the segments and included in the EBIT.

b) Geographical information

The Group operates on a worldwide basis in several geographical areas. Until December 31, 2014, the geographical information of the Group was divided into four regions namely Europe, Americas, Asia-Pacific and Middle East, Central Asia and Africa. As of January 1, 2015, the Kuehne + Nagel Group has amended the reporting structure. The former regions Europe and Middle East, Central Asia and Africa are now reported as one region EMEA.

All products and services are provided in each of these three regions **EMEA**, **Americas** and **Asia-Pacific**. The regional revenue is based on the geographical location of the customers invoiced, and regional assets are based on the geographical location of assets.

To facilitate comparability between the years, 2014 geographical information has been restated.

c) Major Customers

There is no single customer who represents more than 10 per cent of the Group's total revenue.
