

Time-Critical powered by Quick

# Delivering life-saving, life-changing med tech products when every second counts

# Time-Critical powered by Quick

A high-speed logistics service that provides complete reliability and end-to-end support for your mission-critical med tech shipments.

## Top-tier service, 24/7/365

No patient should be kept waiting while urgent med tech equipment is being transported. Take advantage of our global Time-Critical solutions powered by Quick to navigate efficiently through local regulatory requirements for fast and reliable deliveries. From pick up to delivery, we guarantee that your time-sensitive med tech shipments are handled with care and delivered with speed anywhere, any time.

## Expect the unexpected—back-up the back up

A late delivery of an urgent med tech component or device can result in patients waiting and suffering treatment delays. This is why our team of specialists constantly monitors airline alerts and global events, always ready to execute contingency plans. Nothing will stop your shipment from reaching its destination on time.

## Speedy deliveries

To ensure that your patients receive the care they need when they need it, we work with carefully selected carriers, choosing the best routes to make certain that your shipments arrive as quickly and efficiently as possible.

## Custom-made solutions

Our teams are adept at tailoring solutions to the specific requirements of your med tech products, providing door-to-door delivery of your shipments to even the most remote areas across the globe. You'll receive proactive notifications and alerts from our teams at every milestone in your shipment's journey.

**When every moment counts, you can count on us.**
